Description

CAP MED BOAT & YACHT CONSULTING presents this 2023 millesimal 2024 Dufour 470 Grand Large, a recent, modern and well-specified sailing yacht perfectly suited to comfortable cruising, short-handed sailing or a yacht management program. With an overall length of 14.85 m, a beam of 4.74 m and a draft of 2.25 m, this Dufour 470 offers an excellent balance between volume, stability and sailing performance. Her 3 double-cabin layout, 2 heads and convertible saloon provide up to 8 berths in a bright and practical interior. The absence of a skipper cabin creates a large sail locker, ideal for storing cruising equipment. The 75 hp Volvo Penta D2-75 diesel engine, showing approximately 470 hours, is paired with a four-blade folding propeller, providing good efficiency under power and under sail. The sail plan includes a furling mainsail, self-tacking jib and Code 0, a simple and efficient setup ideal for relaxed Mediterranean cruising. The navigation package is complete, including a 12-inch Raymarine Axiom 12 Pro-S touchscreen, Raymarine AIS700 Class B transceiver, Raymarine Ray63 DSC 25 W fixed VHF, Icom IC-M85E handheld VHF, autopilot, Raymarine i70 instruments, log-speedometer system, wind instruments and dual windlass control with chain counter. Onboard autonomy is enhanced by a 2 x 115 W solar kit, SmartShunt 500 A / 50 mV, Victron BMV 712 Smart battery monitor, 40 L water heater and a 3D Tender Superlight Twin Air 270 equipped with a Torqeedo Travel 1103 CS electric engine and three additional batteries. The teak cockpit, bimini, deck shower, cockpit sunpads with integrated storage, exterior gas plancha, cockpit table integrated fridge and steering wheel covers provide genuine comfort both at anchor and underway. Immediately available in Hyères, this 2024 Dufour 470 Grand Large is a strong opportunity for an owner looking for a recent, well-equipped, comfortable and ready-to-sail cruising yacht.
