BATHROOMS 1	ENGINE MANUFACTURER YANMAR 3YM20	ENGINE HOURS 1600	POWER 1 X 20 HP

DESCRIPTION

Boat put up for sale by its owner. Visits on request.

Built in 1983 by Jeanneau, the hull of the Sun Shine 36 is designed by Tony Castro in a racing spirit. However, the interior fittings provide a real comfort of life on board for the cruise. Since her purchase in December 2023, I have been constantly renovating this boat named Nausicaä. As a professional sailor, I worked with rigor and zeal on this renovation which cost me nearly €25,000 in equipment and a year of work where I did not count my hours. My goal was to make it a high-performance, pleasant and durable boat.

Here is a list of the projects undertaken:

Electricity

Wiring completely redone

Changed lighting fixtures

Change of the battery fleet and upgrading to standards

Installation of a 200Watt solar panel and power regulator

220V circuit throughout the boat operating at dock or via converter

Ventilation

Installation of a complete ventilation system via cooling fans

Installation of suction and evacuation ducts in the machine room

Isolation

Inner shell completely exposed

Projection of cork on the walls (Soliège)

Gluing cork plates on top

Goods & Wood

Installation of fixing brackets on all the walls

Custom-made creation of light wood flooring varnished at the time

Installation of new linings

Sanding and resurfacing of interior wood

Saddlery

Cutting of new foams

Custom-made water-repellent fabric covers for the square and linen for the bunks

Plumbing

Change of the bilge pump

Creation of a shower water drainage circuit

Replacement of electric pumps for seawater and fresh water
