PRESTIGE 50 S

Description

CAP MED BOAT & YACHT CONSULTING is pleased to present this 2009 Prestige 50 S, an elegant express cruiser with electric hard-top designed by Garroni Design together with the Jeanneau engineering office. At 15.35 metres in length with a 4.36 metre beam, this Monaco-flagged unit offers a fast and comfortable cruising programme, ideally suited to the Mediterranean. The layout offers 2 cabins and 2 bathrooms, sleeping 4 to 6 guests. The interior linings were fully redone last year, and onboard comfort is provided by reverse-cycle air conditioning, a generator and a fully equipped galley: induction hob, microwave, refrigerator and freezer. The cockpit features an outdoor plancha and refrigerator with sink. Power comes from twin Volvo Penta D9-575 engines of 575 hp each, showing approximately 950 hours and regularly maintained (2024 and 2025 services, invoices available). Manoeuvring is made easy by bow and stern thrusters, a Yacht Controller remote and a port electric mooring winch. Electronics include a Raymarine GPS with interfaced autopilot and VHF. On deck, the yacht features an electric hard-top, a Besenzoni gangway serviced one year ago and a tender garage with winch, whose rams were serviced two years ago, housing a 2.60 m 3D Tender full inflatable dinghy with a new electric outboard. Maintenance is documented by a complete invoice history since 2010 and a survey report dated December 2023. Offshore safety equipment has been up to date since 2024, including a recent 6-person life raft, and the hull has just been polished. Carefully maintained, ready to cruise and with a clear history, this unit represents a rare opportunity for an owner looking for a fast and comfortable express cruiser.
