ENTERPRISE MARINE EM 43 Fly-bridge

249 000 € ALL TAX INCLUDED

Description

CAP MED BOAT & YACHT CONSULTING is pleased to present this 2003 Enterprise Marine EM 43 flybridge motor yacht, fully refitted in 2026. At 13.22 metres in length with a 4.19 metre beam and CE category B certification, this unit offers genuine offshore cruising capability in an easy-to-handle family format. The layout comprises 2 cabins and 2 bathrooms, a saloon with curved settee and a fitted galley with freezers. Onboard comfort is provided by air conditioning, pressurised hot water and an electrical installation upgraded during the refit: new generator, solar panel and Victron battery charger. Power comes from twin Volvo Penta TAMD74L diesel engines of 430 hp each. Navigation electronics include GPS, chartplotter, depth sounder, autopilot and fixed VHF. Outside, the yacht features a flybridge with sunpad, a self-draining teak cockpit, a hydraulic gangway, a stainless steel bathing ladder and an electric windlass. The boat has been surveyed by a certified marine surveyor: no works required, she is ready to cruise immediately. Lying in Beaulieu-sur-Mer, this refitted unit represents an attractive opportunity for family cruising in the Mediterranean.
