DUFOUR 460 Grand Large

179 000 € ALL TAX INCLUDED

Description

CAP MED BOAT & YACHT CONSULTING is pleased to present this 2019 Dufour 460 Grand Large, named ELTHEOLE II. Designed by the La Rochelle yard Dufour Yachts, this 14.15-metre cruiser with a 4.50-metre beam combines elegant, modern lines with a performance hull and a 2.20-metre draft. The yacht is currently lying in Marseille. Power comes from a 60 HP Volvo Penta D2-60F diesel engine from 2019 with 2,650 hours. A reliable, proven drivetrain suited to both coastal and offshore cruising, with a cruising speed of 7 knots and fuel consumption of around 4 litres per hour. The deck layout is that of a fully realised family cruiser: a spacious teak-laid cockpit, twin wheels, cockpit table, cushions and aft sunbathing area, cockpit shower, swim platform and ladder. Comfort has been carefully considered with bimini, sprayhood, sun awning, mooring and camping awnings, gangway and bow thruster for stress-free port manoeuvres. Rig and sails include a furling genoa, a full-batten mainsail with lazy jacks, winches and handles, mainsail track and car, halyard turning blocks, backstay and UV strip. The interior layout offers 5 cabins and 12 berths, a rare capacity in this size, ideal for family cruising as well as a charter programme. The bright, convertible saloon opens onto a fully equipped galley with oven, cooker, refrigerator and cool box. The chart table houses the navigation electronics. Fresh water tank of 530 litres and fuel tank of 250 litres. The electronics package is comprehensive: autopilot, navigation system, compass, speed log, wind instruments, VHF, GPS, chartplotter, depth sounder, radar, radar reflector and navigation software. The electrical installation includes charger, alternator, engine and service batteries, inverter, 220V and 12V circuits, and shore power connection. The Dufour 460 Grand Large brings together volume, performance and ease of handling. A complete, ready-to-sail yacht not to be missed. For
