JEANNEAU Cap Camarat 12.5 WA

325 000 € ALL TAX INCLUDED

Description

JEANNEAU CAP CAMARAT 12.5 WA "STAY SALTY" — 2023 — 3 × YAMAHA F300 · 190 HOURS CAP MED BOAT & YACHT CONSULTING presents this 2023 Cap Camarat 12.5 WA, lying in Cannes, France. At 11.93 metres with a 3.58-metre beam, she is the largest of the Cap Camarat range: a high-capacity day boat certified for eleven people, equally at home on day trips and cruising weekends. French VAT paid. She carries the top engine option in the catalogue: three Yamaha F300 outboards delivering 900 hp in total, with only 190 hours. Yamaha electronic controls and a Helm Master EX joystick are complemented by electric steering, autopilot, bow thruster and Zipwake interceptors with automatic trim — a combination that makes berthing and trim control remarkably straightforward. The electronics package is all-Garmin and exceptionally complete: two 12-inch GPSMAP 1223 XSV displays, Yamaha CL5 engine screen, GT15M-IH sounder, Fantom 18 radar, AIS 800, 315i VHF, fore and aft GC 200 night-vision cameras, motorised searchlight and windlass control at the helm. A Fusion Apollo RA770 system drives two interior speakers, six exterior speakers and a subwoofer. Comfort is where this Cap Camarat stands apart. A 6.4 kVA Fischer Panda diesel generator powers 20,000 BTU of air conditioning across the saloon, cabin and helm, making it genuinely comfortable to stay aboard at anchor or overnight. Also fitted: two 49 L cockpit fridges, a 65 L Domotic interior fridge, ice maker, gas cooker, microwave oven, pressurised water, shower, freshwater electric heads with black-water tank and three TVs (cabin, saloon and aft cockpit). The exterior finish matches: full teak on the cockpit, aft platforms, side decks and foredeck, telescopic teak cockpit table, XXL fore and aft sunpad extensions, forward shade sail, motorised Sureshade extension for the hard top, ski pole, cockpit shower, two LED underwater lights, courtesy lighting, livewell with circulation pump, rod
