Description

This 2017 Quicksilver Activ 755 Sundeck is a one-owner boat, kept by her original owner since launch and continuously serviced by a professional. In the seven-and-a-half metre day cruiser segment, service history and number of owners matter as much as equipment, and this boat has both in her favour. Her power is the other strong point. The Mercury Verado 300 hp is the maximum rating this hull accepts, and it shows only 248 hours. The Verado is a supercharged six-cylinder known for its smoothness and quietness, giving this 755 performance well above the entry-level options offered on the same model. The electrical system has two coupled batteries. The deck plan is that of a true day boat. The aft cockpit converts into a sunbed, the bench is modular, and a removable table allows lunch on board. The helm is sheltered by a wraparound windscreen and protected by a console cover, while the sun awning covers the living area. A second sunbed occupies the foredeck. Below the console, the cabin provides a berth and a marine toilet, which changes how the boat is used as soon as you sail with family or stay aboard for part of the day. She is certified for eight people and her safety equipment is complete for that capacity. Equipment includes a Garmin GPS at the helm, an electric windlass, a refrigerator, a shower, a cockpit table and an audio pack. Capacities are 280 litres of fuel and 80 litres of fresh water. The boat can be viewed in Nice. The current berth, at Port Inland, can be taken over on a rental basis by the buyer, a real advantage in an area where berths are scarce. We are at your disposal to arrange a viewing or a sea trial.

Specifications
