Description

This 2018 Jeanneau Leader 33 (2017 model, 2018 model year) is one of the most accomplished day cruisers in its class. Designed by Garroni Design, she measures 8.82 metres of hull for 10.56 metres overall and 3.32 metres of beam. Her opening-roof hardtop and fully fitted cockpit make her equally suited to a day out and a weekend aboard. TIKEHAU lies in Antibes and can be viewed by appointment. Power comes from twin Volvo Penta D3-220 diesels on sterndrives, with approximately 430 hours. The boat has been serviced every year by a professional yard. In 2026 she received heat exchanger cleaning, a full engine and drive service, and antifouling. The major maintenance has therefore just been carried out, leaving nothing to address on that front for the coming season. The cockpit is this model's real strength, and this example makes the most of it. The sole and bathing platform are finished in Flexiteck. The aft bench backrest folds down to form a second sunpad, the teak table drops away to free up space, and an outdoor galley with sink and refrigerator completes the layout. A television on a swivel arm, a barbecue, a cockpit shower and a bathing ladder turn the cockpit into a genuine living area. The opening hardtop and full aft canvas enclosure allow it to be used from spring through autumn. The foredeck carries a generous sunpad, reached along side decks protected by guardrails and a bow pulpit. The electric windlass with bow roller handles anchoring from the helm. Below, the layout offers two double cabins and a separate heads compartment with a shower stall. The owner's cabin is forward, well ventilated and lit by hull windows. The guest cabin sits beneath the cockpit. The interior galley, practical for a boat of this size, has a two-burner gas hob, a sink and a refrigerator. Joinery and upholstery are in very good condition. At the helm, electronics are by Raymarine with multifunction chartplotter, depth sounder,
