

SALE OCCASION

**Sparkman & Stephens
48'**

150 000 € All Tax Included

DESCRIPTION

The CAP MED YACHT Consulting team is pleased to offer for sale this magnificent aluminum sloop of 48 feet built by the yard Sparkman & Stephen in 1974 based on an extrapolation of the famous Swan 48.

The originality lies in a flush deck teak deck created by its last owner in 2023-2024. The hull of this racing-cruiser, identical to the Swan, provides performance, comfort at sea, and strength, particularly due to its AG4 aluminum hull.

The order for this unit was placed by Mr. Gaston Deffere in 1974. This unit has won numerous regattas and was also used by the Glénans after 1980 as a training boat. The boat has also served for educational and scientific projects. It has sailed on several seas around the globe and has crossed the Atlantic many times. It is now part of the French maritime heritage. The boat is in the process of obtaining BIP (Heritage Interest Boat) certification.

It has been refurbished to new condition between 2023 and 2024 by its last owner:

- Sandblasting of the underwater parts
- New hull paint
- Teak deck
- Reconditioned Perkins engine
- New propeller shaft and shaft seal
- Max Prop propeller 2023.
- New bipolar electrical circuit
- New battery bank
- New 220V/1600W Victron inverter
- 2024 galvanic isolator
- New deck upholstery
