RENIER R9

PRICE UPON REQUEST

Description

CAP MED BOAT & YACHT CONSULTING presents this 2022 Renier R9 FB / EFB, a premium 9.00-meter RIB designed to offer an excellent balance between performance, comfort and versatility. Powered by a Mercury V400 XL petrol engine delivering 400 hp, with only 86 engine hours, this Renier R9 provides powerful, smooth and reassuring navigation. With her category B hull, 3.38 m beam and well-designed layout, she is ideal for sporty outings, family days at sea, relaxed anchorages with friends and comfortable coastal cruising. Her equipment package includes a Garmin 723 XSV touchscreen GPS with echo module, Fusion MSRA210 NMEA audio system with two 240 W speakers, battery charger with shore power and shore cable, wireless windlass remote control, teak finishes, antifouling, and an electric toilet with porthole and black water tank included. The boat also comes with several protective covers, including console and helm seat cover, aft cushion cover and full boat cover. These features help preserve the upholstery and deck equipment while making day-to-day use easier. Recent, low-hour and well equipped, this Renier R9 FB / EFB is a strong opportunity for an owner looking for a modern, powerful and comfortable premium RIB.
